72nd Year—186

APPLICANTS ANNOUNCED FOR POSTMASTER OFFICE

Korea Riot Force Increases In Size
1200 Railroaders Go To Inchon Where Yanks Guard Neutral Panel

SEOUL (AP)—Twelve hundred Red-hating Korean railway workers reached Inchon from Seoul today to reinforce some 300 demonstrators besieging the Neutral Nations Supervisory Commission billets on Wolmi.

About 700 U. S. soldiers are guarding the island, scene of Gen. MacArthur's famed Inchon landing of 1950.

Earlier today, seven U. S. soldiers were injured when the demonstrators broke through a barricade on the causeway leading to the island. That brought to 22 the number of American servicemen injured since the riots began Saturday. None has been seriously injured.

The Koreans are trying to enforce President Rhee's ultimatum that the NNSC leave Korea by Saturday. Rhee claims the Communist Poles and Czechs on the commission are spies.

Today's demonstration was broken up by tear gas bombs and blank shells, the latter fired to frighten the Koreans.

SOME OF THE enraged demonstrators threw a U. S. guard box at one causeway into the sea. Others tried to storm the island from the sea. They too were repulsed.

Nine Koreans were reported injured in the Wolmi clash, three seriously. An ROK army spokesman said one had received a bayonet wound, another had been cut on the head with a rifle butt, and the third had been shot in the leg.

Woman In Line With 17 Men For Job Here

Applicants Will Not Be Required To Take Written Test

The U. S. Civil Service Commission in Washington today announced the names of those who have filed applications for the job of postmaster at Circleville.

Annual salary for the position will be \$6,116. Deadline for applications was last Tuesday.

The job is currently held on temporary basis by Acting Postmaster Charles Walters.

Walters disclosed here that he had filed his application for the permanent post on the day he took the interim position.

A-Energy Seen As Replacing Coal
Solid Fuel To Get Competition In Production Of Electricity

GENEVA (AP)—An American scientist told the atoms-for-peace conference today "there is a good possibility" atomic power will be competing with electricity from coal in the United States within the next 15 or 20 years.

The prediction was made to the 72-nation scientific congress by Dr. James A. Lane of the Atomic Energy Commission's Oak Ridge, Tenn., national laboratory.

"Taking all available economic and technical information at its face value," Lane declared, "it is evident that the outlook for large-scale nuclear power in the United States is very promising."

Reporting at the same conference session, two Russian scientists indicated such an atomic plant as the 5,000-kilowatt station the Soviet Union now is operating can best be utilized in areas remote from coal supplies or where only low grade coal is available.

Giving the first detailed account of the Russian nuclear plant, D.I. Blokhinets and N. A. Nikolayev conceded that the electricity it is turning out costs "considerably" more than the output of large coal-burning Soviet stations. But they added:

Mound-Diggers Find Relics From Ancient 'Medicine' Kit
Discovery Provides Long Lost Link For Story Of Adena Indians; Careful Digging Continues

Hidden for nearly 2,000 years, another important part in the story of the Adena Indians has been uncovered by members of the Ohio Historical Society in a mound recently opened near here.

Dr. Raymond Baby, curator of archaeology at the Ohio State Museum, confirmed late Monday that mound-diggers working under his supervision had unearthed the best known relics of an Adena medical bag—the kit of "tools" and trinkets used by prehistoric medicine men. Similar finds have often been announced in archaeological studies of other Indian tribes, but only small and unsatisfactory traces of the Adena medical bags were on record prior to the discovery here.

Dr. Baby is in charge of the mound excavation work, which began in Jackson Township more than a month ago as a joint project of Ohio State University and the Ohio State Museum. Widely known among the nation's archaeologists, Dr. Baby was described as highly enthused over the latest discovery.

Late last month he announced that relics found in the mound had confirmed that it was constructed by the Adenas, who once lived in this territory.

MAC NOGGLE, of Circleville, author of The Herald column "Roundtown Retrospect" and top authority on the district's history, said the medical bag discovery supplies, in a sense, a "missing link" long sought in the time-shrouded story of the Adenas. Its full appreciation, he pointed out, would be evident only among the nation's archaeologists.

No bag, as such, was found, Noggle explained. But articles known to have been used by the early medicine men were found almost intact and close together while the mound-diggers were carefully probing a square burial tomb at the Jackson Township site. Found among the relics were portions of squirrel jaws.

Archaeologists have long known that the bags, carried by medicine men to conduct their ancient rituals, were made of the whole skins of animals, birds or reptiles.

The Adena medical bag contents were uncovered slightly above a spot where two Indian skeletons were found buried side by side. Between these two burials were many other skeleton particles, some of them showing signs of cremation.

Articles used to draw blood were among those found in the spot where the medical bag had been buried long before the white man came to America. Also among the contents were objects used in the various ceremonies with which the ancient "treated" their ill members.

Among them was a stone cone, or pestle, used to grind materials to obtain coloring matter. And a whetstone used to sharpen bone instruments to razor-like edge.

Prosecutor Sharply Chided By Judge

MARYSVILLE (AP)—Lloyd George Kearns, Union County prosecutor, was acquitted of a blackmail charge yesterday but drew a severe rebuke from the judge who heard his case.

Kearns had waived a jury trial. Mrs. Helen Phipps of Summerville filed the blackmail charge. She charged he threatened to disclose her criminal record if she and her husband sued Kearns' father in a dispute over lease for a house.

Judge William Radcliff of Pickaway County, sitting by assignment, said testimony introduced left a reasonable doubt about Kearns' guilt.

Saying Kearns had "pushed people around and thrown your weight around in a manner not to be condoned," Judge Radcliff also told the prosecutor:

"It is apparent you do not realize the importance and sanctity of the oath. You have apparently mingled your private affairs with your public affairs."

In addition, the Circleville judge told Kearns he had "lost sight of your duty to protect the citizens of this county from any kind of roughshod handling," and had "ruthlessly" taken advantage of his position.

Chandler Sure He Will Win In November

VERSAILLES, Ky. (AP)—A. B. (Happy) Chandler, with a political past and future built on a smiling but indomitable personality, refused to relax today while enjoying his second Democratic nomination for governor.

The 57-year-old former governor, U. S. senator and baseball commissioner, three pounds heavier after a grueling political comeback fight to overcome a state administration firmly entrenched for eight years, confidently predicted victory in November.

He flashed the smile which has been a trademark since earning him the nickname "Happy" as a boy and said, "I am certain that many thousands of registered Republicans will find our program worthy of their support."

He expressed confidence Democrats will "close ranks" for the election despite his vigorous attacks on the administrations of Gov. Lawrence Wetherby and his predecessor, U. S. Sen. Earle Clements.

Doctor Faces Murder Trial In Oklahoma

MCALESTER, Okla. (AP)—An all-male jury prepared today to begin hearing testimony in the trial of Dr. Ben T. Galbraith, 34-year-old McAlester physician charged with the murder of his wife and three small children.

The case took a dramatic turn with the disclosure of notes written by Galbraith and found in his jail cell.

In the account, Galbraith said he killed his wife Mary Katherine, 34, and children because he feared he was "slipping into a nightmare" and did not want his family to suffer.

"I thought, 'why haven't I thought of this before? why, she and the children will be in heaven and will be all right,'" he wrote. "And I can kill them in their sleep and they will never know it."

"That's the way the thoughts would come over and over and over. Suddenly I jumped up and said 'It's the only way. And after that, everything I did was almost mechanical.'"

U.S. Payrolls Total Nearly 65 Million

WASHINGTON (AP)—Employment boomed in July to an all-time record of nearly 65 million, while the number of jobless dipped below 2½ million, the government reported today.

The fifth successive monthly rise in employment carried the total of jobholders to 64,955,000, or about a million above the previous record set only one month earlier. The total is three million above July a year ago.

Extraordinarily brisk hiring of youngsters released from school contributed much of the gain, the Labor and Commerce departments said in a joint report. They added the employment of adults in most industries "held up better than usual for this time of year."

"As a result, unemployment, which is normally stable in July, went down by 200,000 to 2½ million and is now almost a million lower than a year ago," the report said.

The tally of jobless was 2,471,000 as against 2,679,000 in June.

"THE RATE of employment increase during the past five months has not been matched since the postwar reconversion period of 1946," Secretary of Commerce Weeks and Secretary of Labor Mitchell said.

Ancient Israel Tombs Uncovered

JERUSALEM (AP)—More burial chambers with stone coffins bearing the names of the dead have been found at an ancient Jewish cemetery in lower Galilee, a spokesman for the Israel Exploration Society said today.

The cemetery, called Beth Shearim (house of the gates), is 1,600 years old. The burial chambers were cut into a rocky mountain south of the Haifa-Nazareth road. The cemetery was discovered in 1936. The new finds were made after archeologists removed debris for 10 days from subterranean passages.

11 Freed Fliers To Be Home Soon

TOKYO (AP)—Eleven happy U. S. airmen today officially got the news they prayed for during 32 long months in Communist captivity—"home this weekend."

The Air Force said the fliers freed by Red China last week will leave aboard two berth-equipped C54s tomorrow for Travis Air Force Base, Calif., via Midway and Hawaii. Arriving at Travis Friday morning, they will continue aboard two fast two-engine Convairs to the airports closest home.

Big Tropical Storm Turns Into Mainland

MIAMI, Fla. (AP)—Hurricane warnings were hoisted along sections of the North Carolina and Virginia coasts today and the populous East Coast from Norfolk, Va. to New York City was put under a hurricane alert as tropical storm Connie moved toward the area.

South Carolina and Georgia appeared in the clear as Connie moved north-northwestward at a forward speed of 10 to 11 miles an hour, whirling 135-mile winds in a circle around its center.

The great storm was expected to continue on the same course and at that speed for another 24 hours, perhaps veering slightly more to the north.

"This course would bring the center near or a short distance east of Cape Hatteras Wednesday morning," said a Weather Bureau advisory.

It was expected to continue on a north-northwest to north course at about the same speed for the next 12 to 18 hours with little change in size or intensity.

GI Urged Reds To Kill POWs Who Resist

NEW YORK (AP)—A witness at the court-martial of Sgt. James C. Gallagher says the former POW once advised a Communist instructor to shoot captives who resisted Red indoctrination.

Sgt. Lloyd W. Pate testified yesterday he overheard an instructor named Wong ask Gallagher why the Communist study program was not succeeding.

Pate, who identified himself as the leader of the anti-Communist faction in a North Korean POW camp, said he and his squad were singled out by Gallagher as the obstructionists.

He quoted Gallagher as suggesting to Wong: "If I were in your place, I'd shoot them all."

Pate had earlier described a prison camp scene in which he said a sick fellow American died after being beaten. Pate dramatically pointed to Gallagher as the one who did the beating.

Adlai And Ave Book Parley

Harriman Grows Anxious On Stevenson's Plans

CHICAGO (AP)—Two top Democrats meet here tonight for a talk that may have an important bearing on the 1956 Democratic presidential nomination contest.

Gov. Averell Harriman of New York, arriving today for the 47th annual Governors' Conference, dines tonight with former Gov. Adlai E. Stevenson of Illinois, the 1952 Democratic nominee.

There are indications that Harriman would like to know privately what Stevenson has been unwilling as yet to say publicly—whether he again will be a candidate.

Stephen A. Mitchell, former Democratic national chairman and a close associate of Stevenson, said that if Harriman wants to know Stevenson's decision "he certainly can find out."

For himself, Mitchell said he has no doubt that "Stevenson will be running against President Eisenhower next year with a lot better chance of winning than he had in 1952."

HARRIMAN HAS said repeatedly that he is for Stevenson. But he hasn't indicated any certainty that the former Illinois governor will run. Observers think he needs to have that information long before an expected announcement by Stevenson next November.

100 FHA Fraud Cases Unveiled

CLEVELAND (AP)—The Cleveland News said today it had learned that more than 100 cases of FHA loan fraud in the financing of "home improvements" will be presented to the federal grand jury beginning next month by U.S. Atty. Sumner Canary.

The newspaper said indictments would be sought against builders, home improvement contractors, loan company agents acting in collusion and "loan sharks" who charge the mortgagee 10 per cent to obtain FHA loans.

Defendants could be sentenced to two years in prison or fined \$5,000 or both.

Ford Names Chiefs

CLEVELAND (AP)—Ford Motor Co. announced today Fred J. Meredith has been promoted from production manager to plant manager at its Cleveland engine plant, succeeding C. S. Tennant, who has been named manager of a new engine plant to be built at Lima.

Blizzard Mounts

SYDNEY, Australia (AP)—Wintery gales swept New South Wales and Victoria today as southeast Australia recorded its worst blizzard of the year.

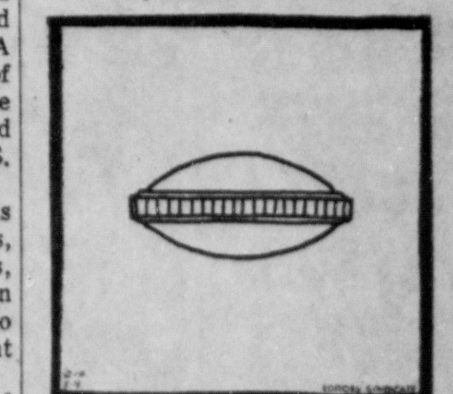

Explosion Rocks Famed Rocket Ship

EDWARDS, Calif. (AP)—An explosion rocked the world's fastest rocket plane yesterday seconds before a mother ship was to release it high above the Mojave Desert.

Research pilot Joseph A. Walker, 34, scrambled up into the mother plane, a B29, and the rocket plane, the stub-winged Bell X-1A, was dropped, pilotless, onto a bombing range from 30,000 feet.

An Air Force spokesman said that the B29 was unable to land with the damaged rocket plane hanging from its belly for fear the rocket, still carrying highly volatile fuel, might explode again.

DROODLES

"CLAM PLAYING HARMONICA" This Droodle was given to me by Herb Shriner, Indiana's gift to Television, who has his own show called "Two For the Money" on NBC. Herb says he practiced on the harmonica for years but now the producers, Goodson and Todman, won't let him play it. Instead he tells jokes about his home town like: "Back home no one ever bought any papers. You knew what everybody was doing. You'd just buy a paper once in a while to see if they got caught at it," or "If you saw a strange face in my home town—it was probably somebody with the mumps." Or "Where I come from we don't have Television. We're still trying to get something good on the radio."

World Today

By JAMES MARLOW
Associated Press
News Analyst

WASHINGTON (AP)—If you lived on a star and had been watching man on earth through the ages you could not help but cross your fingers as you looked down upon the world's atomic scientists meeting this week in Geneva.

You might wish them well. But you'd have to wonder: "Will they make it this time?"

There were the empires that withered — the Egyptian, the Greek, the Roman, the French, the German, the British. With them were their wars, always fresh testimonials to man's inability to get along with man.

Now at last man, in the knowledge of the atom that he holds in his hand, has the power to destroy himself and every other living thing on the face of the earth if he cannot finally learn to live peacefully.

It is almost as if the whole history of man's combined wisdom and folly has been heading inevitably for the mid-20th century when, because he has learned too much, he is faced with the last choice between living and dying altogether.

Delegations from 72 countries — including leading atomic scientists from the United States, Russia, Britain, France, Canada — opened their atom-for-peace conference in Geneva this week.

The meeting had its origin in President Eisenhower's invitation — delivered before the United Nations on Dec. 8, 1953 — to the world's nations to pool their knowledge of the atom's peaceful uses for the good of mankind.

If the nations can go on from this point and exchange their knowledge of what the atom can do — in creating power, in medicine, in agriculture, in industry — man has a future undreamed of before the bomb fell on Hiroshima in 1945.

But will they go into a real exchange of ideas? And, if they do, will they be able to continue to do it? At the moment they meet, other scientists back home in the United States and Russia are devising uses for the atom in war.

The Geneva meeting is being held during a strange lull in the cold war — a period of almost cordial relations between the East and West — when the big powers are talking of keeping the atom for peace only and abolishing it for war.

It is not this meeting, important as it is and could be, that will decide whether man has found real wisdom at last or is a complete fool. The many meetings which decide that will be those which seek a way to outlaw atomic weapons and atomic war and leave the atom thereafter only for peace.

Injuries Kill Boy

CINCINNATI (AP)—Earl Camp, 8, who fell off a bicycle and injured himself near his Wilmington home, died yesterday at Children's Hospital. He was admitted to the hospital Sunday.

Garden Clubs Aid Fair's Trimmings

Flower arrangements and garden displays, designed to help make the Horticulture and Agriculture Building at the Ohio State Fairgrounds a scene of color and beauty, are planned for the 1955 fair through the cooperation of garden club and professional entrants.

Of special interest is the wall of niches, with arrangements being changed every day.

Eight garden club booths, designed by Ohio Association of Garden Clubs and Garden Clubs of Ohio members, will provide ideas for the home gardener. Two table settings will be on display, to be changed every other day.

Flower arrangement demonstrations by members of the two garden clubs are scheduled for Friday, Aug. 26, Sunday, Aug. 28, Tuesday, Aug. 30, and Thursday, Sept. 1, all at 1 p. m.

Adequate seating accommodations and a public address system will be provided for the benefit of spectators.

Gallipolis Jury Being Selected

GALLIPOLIS (AP)—Twelve jurors will undergo further questioning today before being sworn in at the trial of Jackson County Sheriff David L. Trago, charged with contributing to the delinquency of a minor.

The morals charge was brought by the mother of Airman David L. Hatfield, 17, of Gallipolis, for an incident allegedly occurring last July 1. Hatfield is scheduled for overseas shipment Aug. 12, but the prosecution may hold him here for the remainder of the trial.

Trago previously was acquitted in another morals case in his home county.

Ohio Pair Walks Into Train's Path

BOWLING GREEN, Ohio (AP)—An ailing, pajama-clad man and his wife walked arm in arm into the path of a speeding express train Monday night and were killed.

In their car near the tracks was found a suicide note saying, "We can't stand it any longer."

Killed were William Martin, 63, and his wife Louise, 61, of Dunbridge.

Paul Jensen, of Toledo, engineer of the Pennsylvania Railroad's New York-bound flyer Red Arrow, said he saw the couple step onto the tracks and start walking away from the train. He said they looked back once, then turned straight ahead and the engine hit them from the back.

New York-Chicago Tollroad Nearing

CHICAGO (AP)—Indiana Gov. George N. Craig predicts toll road systems linking Chicago and New York at the end of next year.

In a statement yesterday before the start of the annual Governors' Conference here he said Ohio's toll road is to be opened Oct. 1, his own state's east-west turnpike is slated for completion in November, 1956, and links with Pennsylvania and New Jersey toll roads are expected late next year.

Conservation's Best Methods To Be Shown

The best in conservation practices will be on display Wednesday in the annual field day of the Pickaway County Conservation District. The event this year will be held on the farm of the Pickaway County home, a few miles east of Circleville.

Lime companies serving this area have donated supplies for a lime-spreading demonstration, first feature on the program scheduled to start at 9 a. m. Demonstrations in tillage operations, fertilizer applications and the handling of seeding equipment will follow. Farm implement dealers have made this portion of the program possible.

Other activities will include an earth-moving operation in the development of a sod waterway. The construction of a farm pond will be in progress during the day.

Equipment manufacturers and dealers will also demonstrate their brush-cutting and chopping equipment.

THE ANNUAL 4-H club Tractor Rodeo will be held during the day under the supervision of James Shank.

The three individuals placing highest in this rodeo will receive medals, and the highest individual will represent the county in the state tractor rodeo, to be held during the Ohio State Fair.

Businessmen, farmers, homemakers, and anyone interested in tillage practices, seeding methods, farm ponds, sod waterways and tractor rodeo are invited to attend.

This program is cooperatively presented by the county soil conservation service, agriculture extension service, implement dealers, fertilizer and lime dealers, etc.

Ohio To Demand Escapée Return

COLUMBUS (AP)—Return here of Pat McDermott, slayer of a Canton publisher, will be sought this week in Albany, N. Y.

Warden Ralph W. Alvis of Ohio Penitentiary, from where McDermott escaped last November, said Lt. Thomas Temple, the prison's transportation officer, and Capt. Homer W. Hunter, state division of correction security officer, would leave for Albany tomorrow.

The warrant will have to be obtained from New York Gov. Averell Harriman.

Firing Of Toledo Trio Is Upheld

COLUMBUS (AP)—The Ohio Civil Service Commission has affirmed the discharge of three Bureau of Unemployment Compensation workers in Toledo.

The three, who had been discharged effective last June 9, are Edward J. Bodette, manager of the Toledo office, and two of his staff, Margaret E. Kniesser, an employment interviewer, and Mary Wilkins, a clerk.

The three had a hearing before the commission in Toledo last June 28. The commission said the discharges have 15 days in which to appeal.

Chinese Junk Reaches Frisco

SAN FRANCISCO (AP)—A 78-foot sailing junk nosed into San Francisco Bay last night after a 53-day voyage across 6,000 miles of the ocean from Formosa. Aboard were

Distillery Aide Dies

CINCINNATI (AP)—Funeral services will be conducted today for Herbert Hoffheimer, 70, a vice president and Schenley Distillers, Inc. He died Sunday.

five Chinese and an American diplomat.

This is the end of the trip for Calvin E. Mehlert, whose home is Fresno, Calif. He plans to return to his post as U. S. vice consul at Taipei, Formosa. The Chinese, who own the vessel, plan to go on.

"We hope to take the junk around the world," said Chung Yuling, skipper.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

How To Survive An H-Bomb

Some Simple Lessons Noted In Guarding Against Blast

(Editor's Note: It's ten years since the first atomic bombs killed hundreds of thousands of Japanese. Much has been learned since Hiroshima, and evacuation is not the only defense. This is the first of four articles on how to survive an H-bomb).

By ALTON L. BLAKESLEE

Associated Press Science Reporter
NEW YORK (AP) — Some simple lessons for surviving H-bombs are becoming clear.

They could mean the difference between life and death for you and your family.

But they often are overlooked in the paralyzing belief nothing can be done. Some people think one H-bomb will kill everyone within a great circle 40 to 60 miles across. Some see no escape from radioactive fall-out. And many expect, curiously, to be right under the center of an H-bomb, so why think about defense or protection?

The man in the middle of a big city says it probably will go off over his head. So does a housewife two miles away. So does a family in a suburb 15 miles away.

Obviously, one or more of them will be wrong, if a bomb ever falls.

Whether they live might depend upon knowing the lessons learned in A-bomb tests in Nevada, and from experience with H-bomb fall-out last year in the Pacific.

Look, first, at the homes in Survival City, Nevada, rocked last May by an A-bomb nearly twice as powerful as the A-bombs that shattered Hiroshima and Nagasaki in World War II.

A two-story brick house, standing 4,700-feet — less than a mile —

from the center of the blast was destroyed.

It was obvious no one could have survived on either the upper floor or ground floor.

But — the basement was intact, almost free of rubble. Anyone in shelters in that basement probably would have come through unscathed, says Harold L. Goodwin, atomic test director for the Federal Civil Defense Administration.

A little warning, a little shelter, and life instead of death.

But suppose it had been an H-bomb nearly a thousand times more potent?

Then scratch off that two-story house so close to the blast, probably including anyone in the basement shelter.

But — similar houses a few miles distant even from the H-bomb could give the same story of survival, with shelter. Shelters below big city buildings could give the same kind of protection.

A bomb 1,000 times more powerful does not reach out 1,000 times

as far. Its radius of heaviest blast effect is only 10 times greater.

The lesson: shelter and protection enormously increase your chance of survival, even within the ring of the heaviest blast effect.

You may be giving an enemy bombardier too much credit for pin-point accuracy in hitting your home, factory or office — of hitting, say, Times Square not a point five miles away, like La Guardia Airport. You share an equal risk with many others of being directly under the fireball and worst blast, and an equal chance of not being there.

That risk of being only near, and not directly under, a bomb makes knowledge of the survival lessons worth while.

Miss Universe Starts On Movie

HOLLYWOOD (AP) — Miss Universe, Sweden's Hillevi Rombin, has started her film career with a six-word speaking part in a film about clarinetist Benny Goodman. Her speech: "Just one more, please, Mr. Goodman."

She ran through the scene Mon-

day after only one rehearsal—fewer than average for a beginner. Universal-International cast her in the role of an autograph-hunting American bobby-soxer in "The Benny Goodman Story." She speaks English and four other languages.

Sharing her scene with Steve Allen was Carlene King Johnson, Miss Vermont and later Miss U. S. A. in the beauty pageant won by Miss Rombin last month in nearby Long Beach.

The broad kimono sash worn by the Japanese is called an obi.

Ersatz is the German word for substitute.

Sheriff's Office Given Tribute

The office of Pickaway County Sheriff Charles H. Radcliff had high praise today from a regional insurance executive.

Commendation came in the form of a letter from W. C. Lemert, of the Farm Bureau insurance companies. Lemert, with offices in Lancaster, wrote in part:

"During the past 15 years, it has been my privilege to have been associated with various law enforcement agencies, from the New England states to Florida. However, I have never been accorded the high type of service that your department has rendered to me."

"It is our goal in the insurance business to help those who are in distress. This can only be made possible with the fullest cooperation of the various law enforcement bodies."

"In this respect, it has been my pleasure to observe your deputies

Fords Creating Scientific Fund

GENEVA (AP)—Henry Ford II and his two brothers, Benson and William Clay Ford, have created a million-dollar fund to provide annual atoms-for-peace awards for the next 10 years.

Each year an international jury of awards will select an individual or a group of individuals to receive a grant of \$75,000 and "a suitable medal." The recipients will be selected from among the world's scientists, inventors and engineers "without regard for nationality or political belief."

Attorney Dies

CLEVELAND (AP)—Howell Leuck, 65, assistant U. S. attorney here from 1925-29, died last night in St. Vincent Charity Hospital a few hours after he collapsed in common pleas court.

and their working habits. Never once have I observed any of your department failing to give their time unselfishly for the protection of your county's taxpayers."

LESS WHEAT TO STORE

IS SOMETHING happening that may get the government at least partly off the hook in connection with the mountainous surpluses of wheat? More of this year's wheat crop has already been purchased for later consumption than at any similar period in years.

A decrease in the price of wheat of from 10 to 15 cents a bushel, compared to a year ago, has encouraged bakers to leap into the market on an almost unprecedented scale. Some commercial bread bakers have contracted their flour needs up into 1956.

In three days millers booked enough flour orders to supply domestic consumers with one slice of bread per day for a full year. It is predicted the over cost of flour will stabilize consumer bread prices, but not decreases are anticipated because wages and other costs have increased.

This would seem to be a development brought about by the flexible price support program. More of this year's wheat harvest is moving out into consumer channels and less into government storage. A similar development has occurred in the dairy products field.

The government still holds a billion bushels of wheat, most of it unusable as food. That problem remains unsolved. But in the future, as producers grow wheat desirable as food, it is conceivable that most of it will go to bakeries and other processors of food at home and abroad, instead of into government storage.

Main problems now are to transfer wheat production to natural wheat-growing areas and elevate its quality.

TASKMASTER

THIRTY YEARS AGO the dept of federal, state and local governments aggregated \$35 billion, with annual interest charges approximately \$1.6 billion.

Today the total government debt is \$310 billion, of which \$275 billion is federal, \$10 billion state and \$25 billion local government obligations. Obligations of state and local governments are increasing rapidly.

Interest on government debt is now \$8 billion a year — \$7 billion for the federal debt and \$1 billion for state and local debt. Approximately 10 per cent of all federal, state and local taxes are earmarked for interest payments.

Long term debt of private corporations totals \$105 billion and short term debt \$120 billion. Other private debts by unincorporated businesses, individuals and others bring the total debt structure of the United States—government and private—to more than \$700 billion, on which interest payments aggregate more than \$20 billion. This does not include installments and other forms of amortization which obligate private income.

This debt picture is high among the reasons frequently pointed to why America's economy must be managed so that recession does not pinch down income and make the handling of interest and payments of obligations impossible. Such a situation could tear the country apart economically.

Thus the debt factor, looming so formidable after a generation of easy borrowing, can become the nation's taskmaster of the

George E. Sokolsky's

These Days

Back in June, 1955, in the distant era before Good Will came upon us, the Soviet Near Eastern Service, a radio operation like the Voice of America, speaking in Persian, grew wildly excited about what it claimed was very bad advice given to the people of Iran by the Voice of America.

This is the first paragraph of a rather long broadcast:

"Some time ago a listener asked the Voice of America whether it is desirable for Iran to develop her industries or agriculture. The Voice of America replied that Iran should not develop and expand her industries, explaining that industrial development is generally suitable for countries with small area but large population. Such an answer is far from the truth, and does not tally with well-known historic facts."

True, such an answer would not tally with well-known historic facts. It would be a ridiculous answer. So I became interested and sought to learn why the Voice of America would say anything so foolish. So I inquired of Theodore C. Streibert, the Director of the United States Information Agency which runs the Voice of America. He sent me the text of the broadcast upon which the Russian anti-American propaganda was based. The Voice of America Broadcast was made on June 15; the Moscow one on June 24. Here is the Voice of America broadcast:

"Iraqi: . . . Mr. Abdullah Haqai wants to know whether it is better for Iran to become an industrial country or an agricultural country."

"Ghahramani: Well, that is a problem, Miss Iraqi, what do you think?"

"Iraqi: Well, industry and agriculture are the two principal foundations of the economy of a country. And no country can do without any one of the two. But of course the natural conditions of countries have extraordinary effects on this question."

"Ghahramani: Obviously a country like Germany which has a population comparatively greater than available areas of arable land should per force concentrate on industry so that through the sale of its industrial products it may be able to provide its agricultural needs."

"Iraqi: That is right. This is a good instance for Germany is the best example of an industrial country. But as I said before, in my opinion Iran is such that it has possibilities for both agriculture and industry."

"Ghahramani: In my opinion since Iran is a vast country and has vast areas of arable land, the people of Iran should in the first place, endeavor to increase their agricultural produce and meanwhile extend their efforts in order to provide their industrial needs."

The distortion of the truth by Moscow in this particular instance is significant because as nationalism becomes more intensive, a desire for industrialization grows almost into a mania. Unfortunately, not every nation can afford to manufacture everything that is manufactured anywhere upon this Earth.

For instance, not every nation can afford to manufacture a hydrogen bomb; in some instances the cost could absorb most of their national income. This discussion could reach the absurdity that each country produces steel and no country produces wheat.

(Continued on Page Eleven)

future, dictating increased instead of lessened government management of the economy.

British writer says the threat of atomic warfare has vanished. But this country does not as yet feel compelled to make an agonizing reappraisal of its equipment for massive retaliation.

CHAPTER FOURTEEN

SARA'S thoughts were surging in a dozen different directions like mice in a panic as she listened to the Indian describe what he had seen in the 10-cent store. "You were after the ruby, but I bought it before you could reach the counter, so you followed us into the street. You wouldn't do anything about the ruby there because we were talking to a policeman. So you trailed us to the Automat. After Gerry went to get coffee, you sat at our table because you thought Gerry was coming back. Hadn't he left his hat? I was wearing the ruby, but you didn't realize that because you hadn't reached the Automat when I was putting it on and afterwards it was hidden under my blouse. You must have thought Gerry still had it in his pocket. I sat facing the street, but you sat opposite me where you could see the room without turning your head. And you left the table suddenly. Did you . . . Oh, did you see Gerry then? Where did he go?"

The Indian considered her with grave eyes. "He went out the side door. Didn't you know?"

"No, I didn't know." Her voice was flat, colorless. "Was he alone?"

"I couldn't see. He was moving quickly through a crowd. At the door he looked back, frowning. Then he went out into the street." "You followed him?"

"As far as Grand Central station. He went into a telephone booth and looked at something in the palm of his hand. I couldn't see what it was. Then he left the booth, went directly to the Hotel Commodore bar. He looked like a man who has just received a great shock of some kind. It was a rather simple matter for me to pick his pocket and melt away into the crowd."

"I didn't dare open the box until I was in my room with the door locked, shades down. Then I lifted the lid and, of course, the box was empty."

"This last, little glimpse of him, looking 'like a man who has just received a great shock,' only took her an inch or so farther. Then Gerry disappeared into mystery as before."

She looked up at the Indian. "I suppose you think now that he took the box deliberately, opened it when he was in the telephone booth, and then went into the bar to recover from the shock of finding it empty. But Gerry isn't like that. Besides, where is he now? Why didn't he ever come back?"

The Indian smiled at her. "Why don't you drink your sherry?"

"I need it," Sara took several sips. "How did you know this was

Copyright, 1954, by Helen McCloy. Reprinted by arrangement with Random House, Inc. Distributed by King Features Syndicate.

Gerry's address?"

"I didn't. But I knew it was yours. At the Automat you had a portable typewriter with your name and address on a luggage tag tied to the handle. I didn't know Gerry's last name. I just heard you address him once as 'Gerry.' To find him again, I must work through you. And it was always possible that he had slipped the ruby to you before he walked out of the Automat with the box in his pocket to draw anyone who was watching away from you. So I came here."

"You came to search my apartment?" cried Sara. "And it was you who searched Gerry's apartment here earlier this evening?"

His astonishment seemed real. "Gerry has an apartment in this same building."

"You must have known. You must have seen the name 'Gerald Hone' on his mailbox downstairs and associated it with Gerry."

"I didn't go downstairs. As I told you, I entered the building by the skylight on the roof. I walked downstairs and identified your apartment by the visiting card thumbtacked to your door."

"Oh . . ." There was no such card on Gerry's door upstairs. The Indian could have passed it without suspecting that it was Gerry's. Sara said, "Why do you care so much about the ruby? Who are you?"

The Indian said, "I represent His Highness the Rajah of Mogur. I was educated in Edinburgh and—but my name is unimportant."

"I never heard of Mogur," protested Sara.

"Mogur is a tiny state on the border between India and Tibet. The rajah is a Mohammedan, but his subjects are Hindus, speaking a dialect similar to that of Bengal. He respects their religion. There are just enough Mohammedans attached to the court of Mogur to keep the Hindu faith honed and sharpened to its finest point of fanaticism. These people are so simple they cannot believe that any but their old enemies, the unbelieving Mohammedans, would have risked the wrath of Siva by taking the ruby from his shrine. Foreign agents are fanning this flame for their own purposes. Unless the rajah can recover the ruby and display it, there will be riot and worse in Mogur."

"How did Moxon get the ruby?"

"During the war he was a pilot who made a forced landing in Mogur on his way to Burma. He was interned, because Mogur was a neutral state, independent of the British Raj. He saw the ruby and it excited his greed. He had no idea it would be difficult to sell. He slipped into the shrine at night and took it."

"How do you know that?"

"Less than an hour before we discovered its loss, Moxon took off in his own plane from an unlighted airstrip with stolen gasoline."

"I see."

The Indian said, "We traced Moxon's trail to Rangoon, where he went after the war to have a Chinese jeweler set the stone and fasten it to a chain that he could wear around his neck under his clothes. We notified Washington. He was still in the Army, so the state department passed our complaint along to the war department, as it was then. There was no court-martial—just a quiet investigation. He was cleared, because it couldn't be proved that the ruby was in his possession or that the death of the co-pilot was anything but a regrettable accident."

"Wasn't it?"

"A fatal accident in the commission of a felony is murder. If we had been able to prove theft, Moxon would have been in a difficult position. We were sure of his guilt, so we decided to take action ourselves independently. We hadn't enough money to offer a reward that would tempt Moxon. Since the war there is no money in Mogur. So I didn't approach Moxon at all. I approached Mrs. Moxon."

"His wife?"

"And the mother of his two little sons. She refused to believe Moxon had stolen a ruby, but she knew something was wrong and that she was frightened. When he found the jewel was too famous to be sold even to a fence, he couldn't give up the dream of sudden wealth, so he tried something else and that time he was caught."

"I waited. I had no idea where the ruby was, but I hoped he would lead me to it, when he came out of prison. But Moxon broke his parole and disappeared."

"Sooner or later he would communicate with his wife, so I watched her and, eventually, she led me to New York and a small rooming house on the upper west side, where he was living. I had expected to share my vigil with the police. Their shadowing of her was pretty obvious and she threw them off her trail before she reached New York."

"I hardly ever saw them and then only at distance, or in half-light. I heard them more often than I saw them. They were just a rustle in the shadows . . . a sense of being watched . . . a footstep behind me on a quiet street . . . But they were always there. I wondered if Moxon's wife was aware of their vigilance. I thought not or she would hardly have dared to make contact with him in New York."

(To Be Continued)

Bennett Cerf's

Try, Stop Me

Producer Bernie Hart, upon hearing that only the big powers can afford to stockpile atomic weapons, murmured, "What? No bomb in Gilead?" And Ray Smith, editor of "Cats Magazine," tells about his North African typesetter who acquires a new wife every year as regularly as clock work. His associates, of course, now refer to him as The Moor the Marrier.

Wealthy lady button-holed her psychiatrist and reported, "My husband really is going crazy. Last night he went around barking at the top of his lungs, hollering 'I'm the Dog Star.'" "Dog Star, eh?" mused the learned analyst. "This is getting Sirius."

Achilles may not have been absolutely penniless, writes Naomi Sinks, but certainly everybody in Greece knew he wasn't well-heeled.

Sampling Whisky—A Job

By HAL BOYLE

NEW YORK (AP)—Just imagine having to sample whisky, in the bright pearl of your manhood, merely to earn a living.

Perhaps even subject 50 or more different whiskies to the double test of your nose and palate in a single week!

This is the horrid ordeal of Walter Seid, who at 33 is still bearing up manfully under his assignment after seven years of stern salutes to duty.

Many million Americans enjoy a nip of bottled bounce now and then, ordinarily carefully spaced between breakfast and midnight. Other millions of Americans would, rather than proffer their lips with liquor, choose instead to drink the same number of glasses of raw lye. Well, as the fellow says, that's what makes this country great—difference of opinion.

Wally Seid is the man in the middle. His task is to see that people who do want liquor don't get something that tastes like lye.

There are maybe only a couple hundred guys in the whole United States who have the chore of sample testing whisky. The job, depending on a man's prejudice, is neither as satisfying nor repulsive as a fellow might think.

For one thing, it isn't as much fun, if you're the happy-go-lucky type, as being married to a girl who owns a liquor store and gave you a gold key to the front door as her dowry. It has more responsibility.

Seid, a youthful and scholarly looking assistant vice president of distillery who also oversees his firm's production of domestic whisky, made one point about whisky—testing painfully clear.

"You don't swallow the samples," he said loud and firmly.

Well, having busted any dreams of idealism an amateur might harbor about the job, let's go on to the serious problems.

"The trend in America today is toward a light-bodied blend that still retains character," said Seid dryly, standing in the middle of a small laboratory crowd-

ed with 700 bottles of imprisoned spirits.

"A blend may have from 20 to 30 different whiskies in it, and as the product of each distillery may vary with each new batch, each must be checked. The flavor of whisky from the same still will vary depending on whether the barrel has been stored on an upper or lower floor of a warehouse."

About testing whiskies:

"The real old-timers in Kentucky were satisfied with putting a few drops in the palms of their hands, rubbing them together and sniffing deeply. The nose can detect more variety than the sense of taste."

"But I think flavor is important too. I like to test it both ways."

He takes about a tablespoonful of whisky in his mouth, swishes it around, then spits it out—and tastes the remnant as it evaporates.

Fortunately, Seid has to put his taste buds to commercial use only a couple of times a week. Other days he enjoys a highball with water.

225 Are Present At Picnic Of Elks Lodges Of District

Gold Cliff Park Is Scene Of Event

A total of 225 persons, members of the Elks Lodges of the district and their families, enjoyed a picnic held at Gold Cliff Park.

The huge crowd completely filled the large shelter house at the park, where a basket dinner was enjoyed during the noon hour. The festivities, which began at 11 a. m., continued until 8 p. m.

The children were provided with a series of games and contests, while the young people and adults enjoyed a baseball game. The facilities of the park also were utilized by the group. Ross Spalding of the Circleville lodge was recipient of a special registration gift.

Paul Hang, exalted ruler of the local lodge, Dr. D. S. Goldschmidt, secretary of the board of trustees of the state association, Jim Mills of Lancaster, vice chairman of district activities, Mark Hettner, exalted ruler of Lancaster lodge, Leo Ward, also of Lancaster, and Ross Cline and Gene Grady of Chillicothe were in charge of program for the event.

Among the other dignitaries of the organization present were: Harold Scott of Portsmouth, district activities chairman; Gunner Musselman of Circleville, a member of the executive committee of the district, and Sylvan Gardner of Gallipolis, the new District Deputy Grand Exalted Ruler, who succeeds Paul Betz.

DDGER Gardner gave a short address in appreciation for his election to his high office in the lodge, and served refreshments to the group during the afternoon.

Members of lodges of the district and their families were present from: Circleville, Chillicothe, Lancaster, Portsmouth, Newark, Marysville, Columbus, New Lexington, Nelsonville, Logan, Athens, Ironton, Jackson and Gallipolis.

Cheerleaders Are Feted At Dinner

Miss Mary Jo Smith was hostess Monday evening to a patio dinner

Ladies Tourney Winners Named At Country Club

A ladies handicap tournament, which began in June at the Pick-away Country Club, has been completed, and winners are being announced.

Mrs. Jack Leroy took first place in the first division of the tourney, which consisted of 18-hole matches. Mrs. George Van Camp was top winner in the second division of nine-hole matches.

A family tournament now is in progress at the club, and is to be completed by Labor Day.

A total of 14 couples participated in a two-ball mixed foursome held at the club. Mrs. Emmitt Barnhart and George Fuhrman scored low gross for the play. Mrs. Gerald Crites and the Rev. Frank Csaszar scored second low gross, while Mrs. Jack Leroy and Don Bartlett had third low gross.

Mrs. Larry McBrearty and Don Olney had low puts for the play. The outstanding event of the day was a 100-yard approach on the number seven hole, sunk by Mrs. Jack Powell.

Following the golf, a buffet supper was enjoyed in the clubhouse.

Drawings for a Calcutta, to be held Sunday, were postponed until Saturday evening, when the members of the club will hold a patio dance at the club house.

Members are asked to register for a cold plate buffet which will follow the Sunday Calcutta play.

honoring the Circleville High School varsity cheerleaders.

The dinner was held at the home of her parents, Dr. and Mrs. Robert Smith of Circle Drive. Plans were discussed by the group for cheerleading activities for the coming school year. The girls will hold practice sessions twice weekly, beginning this week.

Those present for the event were: Billie Sue Johnson, Rita Edgington, Joyce Graffis, Ruth Ann Cassidy, Marsha Morgan and the hostess.

Annual Family Picnic Is Held By Mothers Club

The annual family picnic of the Child Advancement club was held at Logan Elm Park, with a basket dinner as the highlight.

Those attending the event included:

Mr. and Mrs. David Evans and children, Mr. and Mrs. Gene Wright and children, Mr. and Mrs. Gene Patrick and children, Mr. and Mrs. Gene Miller and family, Mr. and Mrs. James Salyer and family, and Mr. and Mrs. Donald Pontious and family.

Mr. and Mrs. Frank Rhoades and family, Mr. and Mrs. Robert Miller and family, Mr. and Mrs. Darl McAfee and family and Mr. and Mrs. Robert Valentine and family.

Seitz Family Plans Reunion

The annual Seitz family reunion is to be held Sunday at Ted Lewis Park.

Descendants of John W. Jacob R., William and Elisha Seitz from South-Central Ohio are to gather at the park shelter house for a basket dinner. A large attendance is anticipated.

The officers of the group, who are in charge of plans for the event, are: Reginald Seitz of Frankfort, president; S. A. Ringer of Leesburg, vice president, and Vetty Lee of Columbus, secretary-treasurer.

Derby Youths Host Program

The Youth Fellowship of the Derby church entertained the members of the youth groups of the churches in the Derby charge.

A devotional service at 3 p. m. followed a lunch. A program of games for the group completed the activities of the afternoon.

Mrs. George Is Hostess To Class

Mrs. Robert V. George of Northridge Rd. entertained her Sunday school class of the Circleville Gospel Center at Ted Lewis Park. The afternoon was spent in

Personals

Skipper Hanson, son of Mr. and Mrs. Eugene Hanson of Reber Ave., has returned from a visit in Clinton, Iowa. Mrs. Edith Hanson and Mrs. Arnold Kramer of Clinton have been recent guests of the Hansons.

Mr. and Mrs. Ralph Caskey of Cambridge were visitors in Circleville.

Mrs. Robert V. George of Northridge Rd. had as her houseguests, Mrs. Ross Kerr and daughter, Brenda Jo, of Bellefontaine.

The Solagua Garden Club of the Ashville vicinity will meet at 1:30 p. m. Friday in the home of Mrs. Frank Price of Ashville. Mrs. James Hott and Mrs. Jennie Russell are to serve as assisting hostesses.

Mrs. Loring Evans will entertain the Past Chiefs Club of Pythian Sisters at their annual picnic Sunday noon in her cottage at the Lancaster Campground.

Mrs. Ed Reigal of Southwest, Pa., Mrs. Ora Barnes of Lancaster, Mrs. Ada Baker of Circleville Route 4 and Mr. and Mrs. David Payne of Chillicothe were guests of Mr. and Mrs. Orville Baker of Circleville Route 4.

Mrs. Rudy Chelkowski and children, Bruce, Michael, Karen and Patricia, of S. Court St. left Monday evening for Tonawanda, N. Y., where they will visit friends and relatives for the next three weeks. Mr. Chelkowski expects to join his family in Tonawanda at a later date.

Mrs. Ned Bell is visiting her sister, Mrs. Jean Cornwell and niece, Mrs. Neil Ardrey in London. While there she expects to attend the Mary Smith Florence family reunion, to be held Sunday near Hilliards.

games and contests. Refreshments were served by the hostess. Those present for the event included:

Diana Glitt, Kathryn Cassidy, Jerry Mets, Precious Mets, Joe Alderman, Rita Grooms, Frances Westbury, Suza Westbury, Jo Ann Westbury, Miss Ethel Boyer of Circleville Route 4 and the hostess.

ROUNDUP

Pickaway County farmers can obtain experienced advice and up-to-date literature on their farming problems at the County Extension Office located in the Post Office Building, S. Court St., Circleville. The office here is the link between district farmers and the College of Agriculture, Ohio State University.

Emil Malinovsky, Ohio State University extension poultry specialist, said 15 district winners will compete in the state chicken-of-tomorrow contest for juniors. The state contest will be September 22-24 at the Ohio Poultry Conference in the Manufacturer's Building, Ohio State Fairgrounds.

State contest birds will be on display Friday morning, September 23, then barbecued for chicken dinner Friday noon. State winners receive a watch or a trip to the Junior Fact Finding Conference of the Institute of American Poultry Industries at Kansas City, Mo. Winners may choose the award they prefer.

Malinovsky said birds from the 241 entries in district contests this year were the best he has seen in the 7 years of contests. More birds weighed between 4.5 and 5.3 pounds at 10 weeks of age than in past years.

Even with all the field crop harvesting this time of year, Herb Barnes, Ohio State University extension swine specialist, urges farmers to "harvest" their hog crop too.

The corn-hog ratio makes it expensive to feed hogs over 200 pounds. Four and one-half bushels of corn for 50 pounds gain on a 200 pound hog at present market prices does not pay. The specialist recommends farmers

sort hogs each week and sell any weighing over 200 pounds. The risk of price decline adds to the hazard in holding hogs above 200 pounds, he adds.

Prevention may eventually replace treatment for milk fever, says C. L. Blackman, Ohio State University extension specialist.

Satisfactory treatment has been developed but prevention would be more satisfactory.

Dr. J. W. Hibbs and Dr. W. D. Pounden of the Ohio Agricultural Experiment Station found 15,000,000 units of Vitamin D in a cow's feed twice each day for 3 to 7 days prior to calving prevents milk fever.

Hibbs would like dairymen to cooperate in further experiments.

Treatment should not be continued longer than 7 days, Blackman warns. This means a dairymen must know when the cow can be expected to calve.

King Umberto, son of Victor Emmanuel, was the last king of Italy. He was king for a short time after his father's abdication and before the formation of the Italian republic.

National Shows Draw Breeders To Ohio's Fair

Many a State Fair visitor will maintain that the Ohio State Fair is essentially a show place for the display of blooded livestock and that all other activities on the big fairgrounds in Columbus are frosting on the cake of livestock exhibits.

To please this important group, State Fair officials have scheduled a program of national shows for many breeds of draft horses, dairy cattle, sheep and poultry, in addition to the traditional state shows.

Scheduled are the tenth annual American Belgian Show, offering \$4,235 in premiums, and the National Percheron Show, with awards totaling \$4,100. Both breeds provide for state shows for juniors.

Thirteenth National Show of the Red Poll Cattle Club of America will pay \$5,110 in premiums, with judging scheduled for Thursday and Friday, Sept. 1 and 2. F. A. Sloan, Lincoln, Neb., will judge.

THE THIRD All-American Swiss Futurity has attracted a class of 287 head, the largest class ever entered in a Brown Swiss Show.

The winner will receive the rotating trophy of the National Brown Swiss Association and a purse of \$2,500 will be divided.

A Grandma class for cows over ten years of age has been added in each of the Dairy Breed classifications, to stimulate efforts to breed good aged cows and to emphasize the importance of longevity in dairy cattle.

The National Hampshire Show will divide \$2,775 from the Ohio State Fair and the American Hampshire Sheep Association among prize rams and ewes.

The American Oxford Down Rec-

ord Association, the Ohio State Fair and the Ohio Oxford Sheep Breeders Association will combine in offering \$1,590 in prize money for entrants in the National Oxford Show.

The Sumatra Poultry Breeders Club will hold its National Meet during the 1955 Ohio State Fair under the direction of M. E. Freeburn, secretary, Dillsburg, Pa. Of

For Want of A NAIL The BATTLE WAS LOST

Remember the old saying — for want of a nail a shoe was lost; for want of the shoe, a horse was lost; for want of the horse, a general was lost; for want of the general, a battle was lost? We recall this to emphasize that many a battle to save a life has been lost for want of a specific drug at the right time. To guard against this, we keep in stock over 2,000 prescription drugs and chemicals among which are the new "wonder-working drugs" of modern medicine. We can supply whatever medication a doctor may prescribe—and we are ready, willing and able to speed it to the patient's home in an emergency.

Gifts For Ike Piling Up High Out At His Gettysburg Farm

GETTYSBURG, Pa. (U.P.) — If part-time farmer Dwight D. Eisenhower holds onto that city job in Washington for another five years or so, he may have to move out of his farmhouse.

The way people keep giving him things for the 189-acre farm, the time could come when there wouldn't be enough room left for the President, his wife and his golf clubs.

Cows, farm equipment, furniture—most everywhere the President goes somebody gives him something. And Ike Eisenhower goes a lot of places.

Nobody has troubled to keep books but it's known that the President has received at least eight head of livestock, mostly black Angus, since word got around he was interested in building a herd.

This is in addition to, among other things:

- Two pigs, one of them named pansy.
- A flock of chickens.
- A chain saw.
- A spice box for Mrs. Eisenhower.
- An antique sofa and an equally antique fireplace mantel, both presented by the white house staff.
- A 30-foot flagpole and a hand-carved maine pine American Eagle.
- A silver Paul Revere bowl.
- And, most recently, from the American Legion Boys Nation, a 2 1/2-horse power cultivator.

Probably the most elaborate gift has been a complete flower garden, set up at a Washington flower show last year and later moved into the Eisenhower farm on the edge of Gettysburg battlefield. Right pretty one, too. Serpentine brick wall and everything.

All sorts of people bestow gifts on the President — livestock breeders, Republican clubs — even Democrats. The latest Black Angus heifer, blue bonnet, was presented at a Women's National Press Club affair by Democratic congressional leaders Sam Rayburn and Lyndon Johnson of Texas.

Usually the people who make these gifts have nothing to gain from the White House — except, sometimes, a little incidental publicity he makers of one piece of farm equipment, for instance, were overjoyed that their trade name showed up in news photographs.

Giving things to presidents is an old American custom — and one that the presidents sometimes regard wryly. "That's the way it always is," Harry S. Truman once remarked, "people wait until you have everything in the world and then they give you something."

Eisenhower likewise tossed off a good-humoredly ironical remark when he wound up a New England trip laden down with everything

Ohio Polio Total Well Behind '54

COLUMBUS (U.P.) — Ohio had 42 new polio cases during the week ended last Saturday for a year's total of 267, the state health department reported.

During the corresponding week last year, 104 cases were recorded for a year's total to that date of 414. During the week ended last Saturday, 14 cases were in the under five age group, 10 were in the -9 age group, and 17 over 10 years of age.

4 Out Of 5 Corporations Boost Profits

Only 7 Out Of 574 Firms Operated At Loss First 6 Months

By SAM DAWSON

NEW YORK (AP)—The rising tide of prosperity has swept four out of every five corporations to higher profit levels this year.

Almost all of the big industries show gains in net income after taxes. And federal tax collections will run more than a third higher than last year, too.

A list of 574 corporations reporting so far on their profits in the first half of the year shows all but 108 doing better than in the previous year. Only seven operated at a loss compared with 22 a year ago.

Combined the 574 show net income after taxes of \$4,413,284,796, a gain of 34.7 per cent over the \$3,275,716,221 reported by the same companies in the first half of 1954.

With the corporate income tax ranging up to 52 per cent, this means that the treasury also will profit by around 4½ billion dollars.

The President's Council of Economic Advisers estimates that the nation's 600,000 corporations are earning at a rate that should bring the treasury more than 21 billion dollars for the year in corporate income taxes.

The 35 per cent gain in net income registered this year over last is the steepest year-to-year increase since 1950. Then, as now, the economy was recovering strongly from a recession.

But there are two differences between the 1950 high peak of profits and 1955's growing totals. First, in 1950 a sizable part of the earnings reported came from inventory profits, and such is not the case today. Second, profit statements now are held down in a number of cases by deductions for depreciation charges at the accelerated rates permitted for expansion aimed at meeting national defense needs.

Most of the biggest profit gains

this year are reported by the largest companies, although there are a number of little corporations making exceptional growth and turning in exceptional profit gains. A few industries show almost every company gaining. But in most of the industries there is a wide range among companies.

Textile companies, as a group, show profits up 86 per cent this year. The nation's first class railroads report a 79 per cent increase in earnings. Iron and steel companies, as a group, show earnings up 73 per cent.

Other industries doing better than the average for the 574 include: automobiles, up 75 per cent; auto equipment, up 64 per cent; mining and metalworking, up 59 per cent;

building materials, up 45 per cent; drugs, up 41 per cent; rubber, up 38 per cent; and airlines, up 37 per cent.

Rail equipment is the only group showing a decline from a year ago, off 11 per cent.

Gypsy Rose Lee Sheds Third Mate

RENO, Nev. (AP)—Stripper Gypsy Rose Lee shed her third husband Monday. On grounds of cruelty and more than three years separation, the 41-year-old burlesque figure and author of murder mysteries won a divorce from Yulio de Diego, Spanish artist, whom she wed March 19, 1948.

Sokolsky's

These Days

(Continued from Page Four)

It would appear that the discussion between Iraqi and Ghahramani is sound and the distortion by Moscow sheer anti-American propaganda. What I find so

hard to understand is why this discussion takes place at all; the Iranians will do as they please, anyhow. Do we also hand out gratuitous advice to the lovelorn? I have never been able quite to understand the propaganda policy of the United States. What are we trying to do? What are we trying to say to the various peoples of the Earth? If it is to explain the nature of the American system of life, we are not succeeding be-

cause the evidence is that we are so badly understood even by intelligent people. Several years ago, Dorothy Thompson wrote a piece complaining about how difficult it has been

for her to get intelligent foreigners whom she encountered to read basic American material. Why do they not want to understand us; yet they talk so much and so loudly about us?

Circus tigers consume about three pounds of horse meat each day.

Sea water contains about five cents worth of gold to every ton.

TAKE a look at the sports-car snap and styling of the automobile pictured here and you'll notice that this is a Buick Riviera—the hardtop that has outsold all other hardtops in America, bar none.

Now take another look—and you'll see that this swift-lined dazzler has four doors, not just two.

And that's the big news. That's the buzzing excitement. That's the wonderful thing about this new kind of car that's sweeping the nation.

Here, you see, is the first combination of true hardtop styling and true Sedan comfort and convenience...

Because here you get the long, low, rakish look of a Convertible—with no center posts above the door line—with 4-door entry and exit—and with a bigger, Sedan-sized rear compartment.

Great news? Sure is—but it's only part of the good things you'll find in the line of great Buicks now sweeping the country.

There's the bold styling—the buoyant ride—the gorgeous new interiors that grace these big and roomy automobiles.

And there's action here like you never experienced in a car before—because here is the velvet might of record-high V8 power combined with the whip-quick getaway response and gas savings of Variable Pitch Dynaflo.* And when you press the pedal, your spirits really soar.

Record Volume Means Profit-Sharing Deals
It is all these things that have zoomed our sales volume past all expectations. So we're declaring a profit-sharing bonus deal on every trade-in now—an extra allowance beyond the normally long ones we've been giving all year. That means you get:

- 1. A Bonus Trade-In Allowance**—biggest in our history.
- 2. A Bonus Buy**—because in Buick you get the thrill of the year—in style, power, performance, value.
- 3. A Bonus Resale**—because a Buick always resells high—brings you more money when you trade it in.

Drop in on us this very week and make yourself a whopping buy on the hottest-selling Buick ever built.

*Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on ROADMASTER, optional at modest extra cost on other Series.

Thrill and buy of the year is Buick

State Sending Counties Big Tax Handout

The biggest single distribution of local government money that the state makes during the year will go out today from the office of State Auditor James A. Rhodes as \$21,129,635.23 in taxes paid by financial institutions on deposits, shares and capital is returned to Ohio's 88 county auditors. Pick-away County's share will be \$44,982.15.

The statewide total is almost as much as counties receive in 12 months from the other big source of local government money, the sales tax.

This money goes into each county's undivided local government fund and is allocated by the county budget commission among local taxing districts.

Today's distribution of this tax

on intangibles is \$591,430.08 more than the distribution in August last year, and \$2,390,548 more than was returned during the fiscal year ended June 30, 1954. This reflects the growing deposits in Ohio financial institutions.

Cuyahoga county, where much of the state's wealth is concentrated, will receive \$5,803,825.02, or more than 27 percent of the total distribution. Hamilton county will get \$2,685,354.93; Franklin, \$1,311,277.22; Lucas, \$994,640.29; Summit, \$960,437.61; Montgomery, \$913,543.56.

Watered Whisky Gets Court Nod

ST. LOUIS (A)—A bartender can add water to whisky, the U. S. Court of Appeals rules, but can't put more whisky in the bottle.

The 2-1 decision was handed down yesterday on the basis that the federal law forbidding the addition of "any substance" to a partly filled liquor bottle referred to a "substance" on which a tax is due. No tax is due on water.

The ruling was on the govern-

Stowaway Girl To See California

LOS ANGELES (A)—Although a 16-year-old Hawaiian girl stowaway is going to be sent back home, she'll have at least a week in California.

Joyce Joan Pilapil is charged with delinquency by "secreting herself and remaining aboard" the Canadian destroyer Athabaskan. The U. S. Commissioner ordered her held in juvenile hall under \$500 bail, pending a full hearing next Monday. The U. S. Attorney and the probation service said they will recommend that she be returned to her parents in Hilo.

The girl told the commissioner she would like to get in touch with an uncle in San Francisco and see some of the West Coast, provided, of course, he would go her bail. The hearing was closed and the uncle's name was not disclosed.

ment's appeal of eight cases which had been dismissed in St. Paul.

Indigent Rates Up

CANTON (A)—City Council last night OK'd a contract boosting rates for indigent patients at Mercy Hospital to \$22.25 a day and at Aultman Hospital to \$24.49 a day, retroactive to July 1.

Sen. Johnson Plans Return

WASHINGTON (A)—Sen. Lyndon B. Johnson (D-Tex.) says confidently he will return as Democratic Senate leader next January.

In his first news conference since July 2, when he suffered a heart attack, he showed every sign Monday of a recovery which his doctor told him should make him "as good as new" by autumn.

He described as a "partisan analysis" what President Eisenhower said of the congressional session just ended.

He said Republicans were far more responsible than Democrats for failure of three of four bills the President said Congress should have acted upon: the highway

Martin, Lewis Patch Up Feud

HOLLYWOOD (A)—Martin and Lewis say they're going to keep on being Martin and Lewis.

After weeks of feuding, Dean Martin and Jerry Lewis met Monday in the office of Paramount boss Y. Frank Freeman. Afterward the studio said that the pair "agreed to continue on as America's highest paid comedy team." There had been talk of a splitup. Martin said later: "We both agreed to fulfill the contracts, go back to work, and try and make the best of everything."

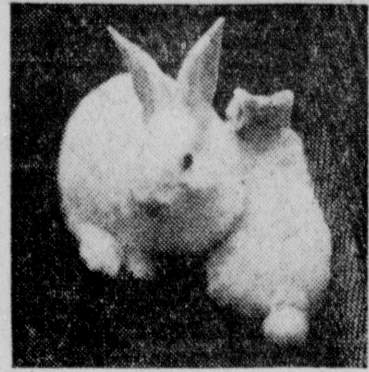

Lewis wasn't available for comment.

building program, health legislation, federal school aid and water resources.

The southernmost city of the United States is Key West, Fla.

Wisconsin Polio Total Jumps High

CHICAGO (A)—The number of polio cases in Wisconsin has doubled in the first seven months of 1955 in sharp contrast to other

We're going to have as much fun as people . . . at the Ohio State Fair, Aug. 26 through Sept. 2.

Midwest states.

Figures released Monday by the U. S. Public Health Service show a 26 per cent drop in polio cases in 10 Midwest states from Jan. 1 through July 31. Throughout the nation, the incidence of polio drop-

ped 28 per cent during the period.

The National Foundation for Infantile Paralysis said the number of cases in Wisconsin has continued to climb alarmingly since July 31.

The state of Louisiana is divided into parishes.

North All-Star Line Weighs 207 Average.

Ohio High School Grid Tilt Friday Slated To Feature Heavyweights

MANSFIELD, Ohio (AP) — The Northern All-Stars will present one of the largest teams in Ohio scholastic history here Friday night as they meet the Rebels in the 10th annual Ohio High School North-South football game.

Mel Knowlton of Alliance, head coach of the Northerners, said his forward wall would average 207 pounds despite the presence of a 160-pound guard, Joe Holloway of Massillon.

Knowlton, 1954 Ohio high school coach of the year, announced his starting lineup today after a week of intensive work with his 25-man squad.

He said his offensive corps would have Ernie Sheeler of Canton McKinley and Dick Schaffrath of Wooster at the ends; Ellison Kelly of Sandusky and Ron Lawrence of Cleveland Cathedral Latin at tackles; Holloway and John Kompara of Canton McKinley at guards; Ernie Spychalski of Toledo Devilbiss at center; Joe Morrison of Lima South at quarterback; Wilmer Fowler of Mansfield and Tom Barnett of Alliance at the halves; and Don Clark of Akron Central at fullback.

On defense, Schaffrath, Holloway, Morrison and Barnett will drop out and will be replaced by Jim Heider of Toledo Waite at end, Clayborn Giles of Warren and Ron Toth of Cleveland Cathedral Latin at the linebackers spot, and Dick Horvath of Youngstown-Rayen at halfback.

The Northerners went through two long drills yesterday. Emphasis was on the passing game with Morrison doing the tossing. Knowlton is known as one of the best pass-offense coaches in the business after developing Johnny Borton of Ohio State and Len Dawson, Purdue's great aerial star.

End Gary Prahnst of Beria and tackle Bob Prater of Marion dropped out of the Northern lineup because of injuries. Prahnst received rib injuries and Prater suffered a thigh injury. They were replaced by Heider and Bob Bowman of Niles.

Three Southerners, also are out because of injuries and will miss Friday's game.

Bill Neal of Columbus suffered a head injury, Brian Donahue of Columbus is out with a twisted knee, and Harley Linthicum of

Springfield was ousted by a pulled leg muscle and skin rash.

Nick McKinley of Wyoming replaced Linthicum from among the list of alternates.

All five injured players, along with Milan Senokozlieff of Mansfield who dropped out last week with an injured shoulder, will remain here until after the game as guests of the sponsoring Ohio High School Football Coaches Assn.

Knowlton, speaking of the size of his forward wall, said, "Maybe they are too big. Some of them do not move too fast. A couple of them are just at that awkward

stage but figure to be great college stars in a couple of years."

He said the team had not elected a captain as yet but would name both an offense and defensive leader Thursday.

While the 25-man squads went through their twin practices yesterday, almost 300 coaches, including about 100 college mentors from 16 states, listened to Blanton Collier, University of Kentucky head coach, outline various offensive techniques and drills and his method of evaluating football movies. Today's clinic program had Woody Hayes, coach of Ohio

State's Western Conference, National and Rosebowl champions, as the speaker. Hayes was to discuss passing offense and defense, and Ohio State's variation of the split-T.

Byron Bozarth, Mansfield high school athletic director, said the stadium where Friday's game will be staged has a total seating capacity of 14,200 and that a crowd of more than 10,000 is expected. In the previous nine games, the all senior squads have battled on even terms, each side having won four and tied one.

GE Hammers Elks To Open Pony Playoff

General Electric's team in the Pony League bulldozed its way to a big edge in the pennant play-off Monday night, hammering the Elks in a lopsided contest, 11 to 3.

The game, played at Ted Lewis park, opened a best-of-three series to decide the loop's championship. It was more than decided in the first inning when GE short-circuited the BPOE boys with a six-run attack.

Two more runs for GE in the third, and three more in the fifth turned out to be insurance that wasn't needed.

The Elks scored three in the fifth, but that was all they could do. They were held to four safeties and had three errors marked against them. GE gathered 10 hits.

Second game of the pennant series is scheduled at Lewis Park this evening.

DeMolay Winner Of District Title

Circleville's DeMolay softball team will have to waive its chance to participate in the state DeMolay playoffs.

But the locals won the championship of DeMolay District 4 by a margin that left no doubt. Columbus Aladdin softballers, who will now represent the district in the state finals, tumbled before the Circleville team last Sunday, 12 to 5.

Harley Evans pitched for Circleville. The 4th district also includes Newark, Mt. Vernon and Lancaster.

Despite the fact that they won the district championship, Circleville's players will be barred from the state playoffs by technicalities set up for the competition.

NOW a member of the Cleveland Indians, Sal Maglie, the ex-Giants' pitcher, unfurls his new flag and hopes it's a pennant winner. Sal went to the Tribe on waivers. (International)

Right-Hand Batters Lead Both Leagues

NEW YORK (AP) — Right-handed batters dominate the American League batting picture today, headed by Detroit's Al Kaline, the leader with a .351 average.

The right-handed batters who follow Kaline in the race are Detroit's Harvey Kuenn, .329, Kansas City's Vic Power, .318, Cleveland's Al Smith, .315 and Chicago's George Kell, .313.

Brooklyn's Roy Campanella, also a righty hitter, continues to pace the National League batsmen with a .334 mark. Runnerup Richie Ashburn of Philadelphia stayed at .328 and Cincinnati's Wally Post moved into third at .317.

Top Hat Sure Of Place In Softball Finals

Top Hat softballers carried Circleville's hopes into the final play-off of the district softball tournament at Kingston Monday night, nosing out Hillsboro in a 2-0 thriller.

By virtue of their latest victory in the double-elimination test, the Hatters will play the winner of the losers' bracket for title laurels. Last night's fray settled the winners' bracket.

Seventeen teams remain in the losers' bracket.

Last night's win put another stellar performance in the long list of hot games pitched by Stillman Morrison, mainspring hurler for the Circleville club. He held the powerful Hillsboro artillery to three hits, while his mates were collecting seven.

The scrap was settled in favor of the locals in the fourth when Snap Ankrom singled ahead of a sizzling triple by Harold Gulick. Gulick also scored on the play when the throw to the plate was wild.

Harry Strawser suffered a ruptured blood vessel in his foot and will be idled for a few weeks.

8 Coaches Chalk Quarter Century

NEW YORK (AP) — Eight football coaches in major college ranks have moved into the second quarter-century of their careers. The dean of them all is Lou Little of Columbia.

Little has been coaching college football 31 years, 25 of these at his present post.

The other 25-year veterans are Edward Anderson of Holy Cross, 29 years; Harvey Harman of Rutgers, 29; Lynn Waldorf of California, 28; Jess Neely of Rice, 28; Don Faurot of Missouri, 26; Warren Woodson of Arizona, 25; and Charlie Caldwell of Princeton, 25.

Cuban To Protest New York Bout

NEW YORK (AP) — Cuban Isaac Logart, lower last night of a split decision in 10 rounds to Virgil Akins, said his manager, Eddie Mafuz, will protest the decision to the New York Athletic Commis-

sion. "I ask the commissioner to see the scorecards and he won't show them to me," yelled the Cuban's manager. "I will make protest."

The crowd of 1,300 paying \$2,026 booed the verdict for Akins by judge Joe Agnello (6-4) and judge Frank Forbes (5-4-1). Referee Ray Miller scored it for Logart 5-4-1.

Archers Braced For Title Shoot

OXFORD (AP)—Men and women bow-and-arrow enthusiasts today start a grueling three-day competition out of which will emerge the target champions of the National Archery Assn.

Bob Rhode of Minneapolis, and Laurette Young of Detroit are the defending champions.

The world record in the distance mark in the free style flight with footbow was broken yesterday. Charles Pierson of Cincinnati powered his arrow 774 yards, erasing the mark of 719 yards set by Paul Berry of Middletown in 1949.

Circleville's Guardsmen Leave Soon For Summer Training

Company I Will Spend 15 Days In Kentucky

rienced personnel an opportunity to refresh on the basic lessons. In charge of the contingent will be Lt. Homer F. Graves of Kingston, company commander.

While in Summer training, the Guardsmen will handle a wide variety of weapons, pass through an intensive course in the basic elements of military life, and solve tactical problems.

A high point in their stay at the Kentucky camp will come on August 20, when the regiment will join many other units in a parade for Governor Frank J. Lausche.

Sports activity will help relieve the training routine. Evansville, Ind., is the nearest big city.

RESPONSIBLE for the various sections when Company I moves away in convoy will be the following:

Sgt. Ted Mogan, 60 mm. mor-

tars; Sgt. Ralph Coleman, 57 mm. recoilless; Sgt. Maynard Burns, 30-caliber light machine guns; Cpl. Bob Sensenbrenner, 3.5 rocket launchers.

Lt. Bob Shaw will serve as 3rd Battalion light machine guns instructor. M-Sgt. Walter Gilmore will be in charge of administrative work.

William Andrews and Ronald Seal, who will attend a pre-mess school at Camp Breckinridge, will leave ahead of the company.

Lt. Stanley Spring, industrial arts teacher at Circleville High School, will be making the Summer training trip with Company I for the first time.

Among the company's newest recruits are:

Philip Certain, of Darbyville, and Larry Lemley and Joseph Woodrum, both of Circleville.

Investment Adviser Hunters Given Help By New Booklet

NEW YORK, (AP)—Seems there are a number of people in these prosperous times with troubles like this:

They have a goodly sum of money coming in. They'd like to put it into securities. They are too busy to keep the required watchful eye on a stock portfolio. They'd hire the services of a professional investment counselor. But they aren't sure how to select one.

The growing business of furnishing "how to" guides has now got around to this subject.

The American Institute of Management will soon issue for its members a "How to Choose an Investment Adviser" brochure. It is aimed particularly at business ex-

ecutives and others who see securities as one means of building and maintaining income in the face of heavy personal taxes.

Some companies forbid their executives to dabble in stocks because to do so successfully would take too much of the company's time. Other executives don't want to take the time. And some don't have the necessary confidence.

Forty two firms specializing in such service are listed by the Institute as members of the Investment Counsel Assn. of America. Fifteen have offices in New York, and one or more are located in 13 other cities. They are distinct from advisory services, or brokers'

customers' men, or trust departments of banks.

Many advisers to individuals won't deal with accounts under \$100,000. Their fees usually range from 1/2 of 1 per cent for handling a portfolio of that size to 1/4 of 1 per cent if the portfolio contains securities valued at six million dollars, or more.

Some counselling firms, however specialize in small accounts. Their fees usually range from 1 1/2 per cent for a \$5,000 portfolio to 1 1/4 per cent for one above \$20,000.

The successful counsellor? The Institute says: "His strength lies in ability—resulting partly from his own inquiring mind—to interpret developments before even industry itself has perceived their meaning."

Lansing is the capital of Michigan.

Daytonian Drowns

DAYTON (AP)—Melvin Ernest Davis, 45, of Dayton, drowned in the Miami River just south of here

yesterday when he lost his balance while riding in a motorboat and fell overboard.

A stirrup cup is a farewell drink.
